DETAILED ACTION

RESPONSE TO AMENDMENT

Claims 1, 4, 5, 8, 10 and 13 have been amended.

Claims 2, 3, 6, 7, 9, 11, 12 and 14-21 have been cancelled.

Claims 1, 4, 5, 8, 10 and 13 are pending.

Claims 1, 4, 5, 8, 10 and 13 are allowed.

REASONS FOR ALLOWANCE

1. The following is the Examiner's statement of reasons for allowance:

The prior art or record fails to teach neither singly nor in combination, the claimed limitation of "executing traffic regulation control by changing the stations to be regulated and a number of the stations to be regulated; wherein the regulation control unit includes a regulation pattern selection table comprised of patterns P1 to Pn set every cycle C1 to Cn of the processor and a order-of-regulation-targets table comprised of patterns P1 to Pn with identification numbers of the stations set in each pattern" as stated in independent claims 1, 5 and 10 (and further illustrated by Figures 6-9, 15 and 16 and support in Applicant's Specification on pages 11-16). Specifically, the prior art of record, fails to teach the detailed claimed limitation "wherein if the cycle number of the processor is Ca($1 \leq a \leq n$) while the traffic regulation control is performed, said regulation control unit reads the pattern Pa of the same number as the cycle Ca of the processor from the regulation pattern selection table and selects the top N stations in the selected pattern by using the order-of-regulation-targets table, when the number of stations to be regulated is identified by 'N'" (as stated in independent claims 1, 5 and 10).

Although the prior art of record teach regulating traffic and congestion control, it differs

from Applicant's claimed invention, which specifically changes the stations and the number of stations being regulated, while maintaining a cyclic pattern of stations to regulate. These limitations, in conjunction with other limitations in the independent and dependent claims, are not specifically disclosed or remotely suggested in the prior art of record. A review of claims 1, 4, 5, 8, 10 and 13, in view of the Examiner's remarks above, indicates that these claims are allowable over the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONCLUSION

3. The prior art made of record and not relied upon is considered pertinent to the applicant's disclosure: Jain (5,193,151), Soumiya et al (6,671,257), Knutsson et al (6,128,506), Jensen et al (6,067,572).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kristie Shingles whose telephone number is 571-272-3888. The examiner can normally be reached on Monday-Friday 8:30-6:00pm.
